

## PROFESSIONAL SUMMARY

---

Results-driven BTech student specializing in Computer Science and Artificial Intelligence at ABESIT, with robust expertise in full-stack web development, machine learning, and Python programming. Skilled in designing and building end-to-end solutions with React.js, Node.js, Express.js, MongoDB, and SQL, alongside hands-on experience with data science and AI tools such as TensorFlow, PyTorch, Scikit-learn, and Tableau.

## EXPERIENCE

---

**science and AI tools such as TensorFlow, PyTorch, Scikit**  
learn, and Tableau.

**with data**

science and AI tools such as TensorFlow, PyTorch, Scikit-learn, and Tableau.

## EDUCATION

---

Ghaziabad

Chakia

Motihari

## SKILLS

---

Assessment Platform, Certificates, Full Stack Web Development Certificate, 2024 November — Learned front, end and back, end development using, JavaScript, HTML, CSS, React.js, Node.js, Express, MongoDB, SQL. Built and deployed responsive web apps, REST, APIs, implemented user authentication, database integration, version control with Git., Deloitte Australia Data Analytics Job Simulation, technology tasks, created dashboards in Tableau, Data Science Course, Python programming, machine learning, (scikit, learn, TensorFlow), deep learning, data preprocessing, regression, clustering, Tableau visualization., 100 Days of Code, covering automation, web and, app development, data science, machine learning, tools like Flask, Pandas, Selenium, Scikit, learn., Skill, DockerJavaScriptPythonTableauScikit, learnGitTensorFlowReact.jsNode.js, TensorFlow & PyTorchSQL, MongoDBTensorFlowREST APIsLinuxProblem Solving, Achievements, Selected for Techmate Avishkar 3.0 internship, pitching, an innovative solution that impressed judges and, resulted in a one, month hands, on mentorship., Solved 280+ coding challenges on, LeetCode/GeeksforGeeks, demonstrating advanced, problem, solving and algorithmic expertise., Contributed to 10+ open source projects through, GSoC and independent initiatives, implementing key, features, fixing bugs, improving documentation for, global developer communities., Winner of 2 inter, college and online hackathons, world challenges.
